### **STM LOTTERY POWERS UP YAYASAN SUNBEAMS HOME WITH SOLAR ENERGY INITIATIVE**

STM Lottery Sdn Bhd is proud to announce its sponsorship of a solar panel installation project at Yayasan Sunbeams Home under its Helping Hands community initiative. This effort marks a significant milestone in the company's ongoing commitment to environmental sustainability and community well-being.

The solar panels were successfully installed at the boys' dormitory of Yayasan Sunbeams Home on 20 January 2025. The project was officially launched yesterday at a special ceremony attended by Mr. Giam Say Khoon, General Manager (Communications & Sustainability) of STM Lottery, and Pastor Alvin Tan Ooi Seng, Founder of Yayasan Sunbeams Home.

Yayasan Sunbeams Home currently houses 91 children from diverse backgrounds, providing them with care, education, and support in a safe and nurturing environment. With the newly installed solar panels, the home is expected to save approximately RM340 per month in electricity costs. These monthly savings will enable the home to allocate more resources to the welfare and development of the children.

In addition to reducing operating costs, the solar energy system is projected to reduce greenhouse gas emissions by an estimated 140,000 kg of CO<sub>2</sub> equivalent over the next 25 years, contributing to a cleaner and more sustainable environment.

"The Sports Toto Rays of Hope Solar Energy Project" is a new sustainable corporate social responsibility (CSR) initiative under Helping Hands, and we are thrilled to partner with Yayasan Sunbeams Home on this important effort.

"By investing in solar energy, we are not only helping the home reduce its carbon footprint but also supporting a more cost-effective and sustainable future for the children. This project reflects our broader commitment to environmental responsibility and empowering communities through impactful CSR initiatives. We aim to benefit more charitable homes and organisations through this project," said Mr. Giam Say Khoon.

Pastor Alvin Tan expressed his gratitude, saying, "We are incredibly grateful for the support from STM Lottery. This solar panel installation will make a real difference in our ability to provide a comfortable, efficient, and environmentally conscious environment for our children."

STM Lottery remains committed to initiatives that benefit both people and the planet. The company looks forward to building more partnerships that drive long-term, sustainable impact in local communities.
